Delivery Method

After my booked gallons are delivered, I want Pro Cooperative to consider me:

- Automatic Delivery - Pro Coop monitors my levels makes deliveries to keep me supplied.
- Will Call – Pro Coop will not make any deliveries unless I call to place an order.

My signature below acknowledges that I understand:

- This contract is non-transferable and will be delivered to the contract customer only.
- All contracted gallons will be filled by AUTOMATIC DELIVERY while booked gallons remain and I am authorizing Pro Cooperative to fill my tank at any time throughout the contract period.
- Any \$0.10 Down Payment program money down is not refundable for unused gallons.
- I consent to having a remote tank monitor placed on my tank to provide Pro Cooperative with information needed to make timely and efficient deliveries.
- In the rare case of extreme supply disruptions, freight surcharges may be required to secure products from out of state terminals.
